ARTIST BIO

Chris Wheel is a professional magician and mentalist with over 15 years of experience performing at corporate events, private parties, weddings, colleges, resorts, and community venues. Known for his ability to create genuine human connection through close-up magic and interactive mentalism, Chris brings a rare combination of technical skill, psychological insight, and natural humor to every performance.

What truly sets Chris apart is his commitment to customization. He does not perform the same act twice. Every show is tailored to the audience, the environment, and the energy of the room. Whether he is working a cocktail hour table by table, holding a full audience captive in a parlor show, or drawing crowds at a trade show booth, he adapts in real time so that every guest experiences something that feels personal, spontaneous, and made just for them.

His performances are clean, highly professional, and consistently described by clients as the highlight of the event. From intimate gatherings to large-scale productions, Chris delivers moments that guests are still talking about long after the night is over.
